

28<sup>th</sup> June 2010

## Kielce, Poland UEM Rd 2

While Daryl was winning at the Welsh 2 day KORR teammate Greg Evans on his KTM 305 EXC-F travelled out to Poland for the second European round. But very different weather conditions faced Greg as pre race it just rained all day.

Greg had two trouble free days to win each day of his Senior E2 Class as he did in the first round of France, the first day he finished 2<sup>nd</sup> overall behind local favourite Michael Szuster and day 2 he finished 3<sup>rd</sup> overall.

**Greg Evans** "Really pleased with the result again, it was a bit tricky as we had no indication during the day of my position so I just pushed each day as hard as I could. The tests started to become very rough due to the recent rain and this put alot of expectations on the WP suspension which worked very well again"

**Next Event:** Rd 4 BEC, Knighton, Wales 10/11<sup>th</sup> July
